

# RIA NAVAS

[rianavas7@gmail.com](mailto:rianavas7@gmail.com) | +91 8921413648 | Kottayam, Kerala. | [Linkedin](#)

## SUMMARY

---

Electronics and Communication Engineering graduate with a keen interest in embedded systems, IoT, electronics, and networking technologies. Possesses hands-on experience through academic projects involving Arduino, Raspberry Pi, OpenCV, and PCB design. Eager to apply technical knowledge, learn industry practices, and contribute to engineering solutions.

## EDUCATION

---

B.Tech in Electronics and Communication Engineering | Rajiv Gandhi Institute of Technology, Kottayam | 2022 - 2026 | CGPA 8.95

## PROJECTS

---

RFID-Based Smart Car Parking System with Weight Sensing Capability.

- Designed to optimize parking operations, system combines RFID based payment and weight sensors to automate vehicle entry and exit while preventing overweight vehicles from accessing the parking.
- Used Arduino, Embedded C and Sensor fusion.

Smart Secure ATM.

- Developed a biometric verification system integrating face and fingerprint recognition to eliminate the vulnerabilities inherent in traditional card-and-PIN methods.
- By leveraging OpenCV and Python on an embedded Raspberry Pi platform, the system ensures that only legitimate users gain access, providing a seamless and password-free transaction experience.

## TRAINING AND CERTIFICATIONS

---

- Intern -Techmindz, Carnival Infopark, Kochi | Jun 2025 | Python Programming.
- NPTEL Online Certification - Digital System Design (Jan-Apr 2024).
- Workshops: Build your Bot, Verilog and Financial Stock Market.

## SKILLS

---

- Technical Skills: Python, C++, C, Basic HTML
- Embedded & Electronics: OpenCV, Arduino, Raspberry Pi, PCB Design
- Networking Concepts: LAN/WAN, IP Addressing, Routing and Switching Fundamentals
- Soft Skills: Teamwork, Problem-Solving, Communication, Presentation
- Languages: English, Malayalam, Hindi
